WEB DEVELOPER

As a seasoned web developer, I excel in HTML, CSS, JavaScript, and diverse frameworks. My expertise encompasses both front-end and back-end development, emphasizing responsive, user-oriented design. I'm dedicated to clean code and staying updated with industry trends. Additionally, I'm skilled in database management, cloud technologies, and version control. I'm committed to creating efficient, secure, and cutting-edge web solutions to meet client objectives.

KEY SKILLS

HTML5/CSS3	React.js	Node.js
JavaScript	RESTful API	Express.js
Bootstrap	REDUX	MongoDB
Tailwind CSS	Git, GitHub	Mongoose.js

PROJECTS

Notes App

September 2023

MERN Full Stack Web Application with Login Feature

- Crafted a full-stack MERN project, an online Notes app.
- React.js frontend employs state management, useContext, useEffect, and redux.
- Implemented user authentication with bcrypt.js and JSON Web Tokens, enhancing security.
- Backend, powered by Node.js and Express.js, offers RESTful API with dedicated routes.
- MongoDB, Mongoose: efficient data management, robust security with password hashing, 'salt & pepper'.
- Utilized Express-validator for input validation, further enhancing data integrity.

News App

August 2023

A NEWS app that fetches real-time news from a pre-existing API.

- Developed a React.js frontend NEWS app.
- Utilized Tailwind CSS for responsive design.
- React states, useEffect, and Fetch API for dynamic content.
- Loading spinner and progress bar for improved user experience, Categories like sports, politics, sci-tech, etc.

TextUtils App

June 2023

An App to manipulate texts.

- Developed a React.js frontend TextUtils App.

EDUCATION & CERTIFICATIONS
